

YOKOJI-ZEN MOUNTAIN CENTER

Help us raise **\$25,000** to fix the road to Yokoji.

If you have driven up to the Center on the one mile long dirt road that leads to the entrance of Yokoji, you will have probably seen it in many different states over the years. Every winter, storms erode more material from the road, only some of which we are able to recover. Ideally, every spring we would replace the lost material to maintain a decent surface on the road. Unfortunately, we have not been able to afford to do this for over five years. We have now reached the bedrock. There is no more material to lose. We need to put down new material now if the road is to be serviceable next winter.

We received a quote from a professional firm two years ago for \$90,000 to cover the whole road with new base material. This is not a realistic sum for us. However, by raising over \$25,000 we can cover the worst parts of the road and do the grading work ourselves with the Center tractor. Many man-hours were spent over the winter plowing, grading and repairing the road, but without more material to put on it, there is only so much we can do.

Please help us with this critical project. If we cannot do it now, access to the Center this winter could be severely restricted for most 2WD vehicles.

This is one project amongst many we need to take care of. The zendo roof needs to be replaced within the next year, the office deck still needs to be finished plus we have plans to reduce the footprint of the accommodation by taking down some of the smaller cabins and building a centralized practice house for residents and guests. We simply do not have the income to realize these projects without help from you, the sangha. Please do what you can to help Yokoji flourish.
